Education

SR University, Telangana, India

Bachelor of Technology in CSE

2021 – 2025

CGPA: 7.71/10

SR Junior College, Telangana, India

MPC Intermediate

2019 – 2021

Percentage: 73.6%

SR Prime School, Telangana, India

Matriculation

2018 – 2019

Percentage: 63%

Technical Skills

Programming Languages: Java, Python, JavaScript, HTML, CSS, SQL

Frameworks: Flask, REST APIs, Node.js

Databases: MySQL, MongoDB, PostgreSQL

Tools & Cloud: Git, GitHub, AWS, Netlify, Render, Cloudflare

Projects

Smart-Resume: Analysis & Shortlisting —

Python, Flask, ML, MongoDB

REST API

- Built an dual-login platform for recruiters and job seekers to automate end-to-end resume screening and hiring workflows.
- Used Python and ML models to evaluate ATS scores, rank candidates against job descriptions, and generate improvement suggestions tested across 50+ resumes.
- Enabled recruiters to export ranked shortlists as CSV files with visual insights, reducing manual screening effort and improving hiring decision speed.

Fruits E-Commerce Platform —

HTML/CSS, JavaScript, SQL

Netlify, Cloudflare

- Built a fully functional e-commerce web application supporting product browsing, cart management, and checkout for fresh fruit products.
- Developed an admin panel with SQL-backed CRUD operations allowing dynamic management of products in real time.
- Deployed to production serving live traffic, with a responsive front-end ensuring smooth user experience across devices.

Twitter Data Analysis Tool —

Python, NLTK, MongoDB

HTML/CSS/JS

- Developed a live tweet streaming and sentiment analysis platform using Python, NLTK, and MongoDB for businesses, researchers, and content creators.
- Processed 1000+ tweets using NLP pipelines to classify sentiment, extract trending topics, and measure engagement across target keywords and hashtags.
- Delivered an interactive HTML/CSS/JS dashboard to visualize public sentiment, brand perception, and trend data in real time.

Restaurant Management System —

Java, Eclipse

- Developed a full-stack web application to digitize ordering and billing workflows for a restaurant, eliminating paper-based processes.
- Implemented contactless ordering using Java, allowing customers to browse the menu and place orders digitally without wait staff dependency.
- Integrated real-time digital billing and order tracking to improve operational efficiency and minimize human error in order management.

Internships

Full Stack Developer Intern

AI Variant Internship

Google Android Developer Intern

AICTE Virtual Internship

Certifications and Workshops

Computer Graphics and Animations - Infosys

Mobile Application Development - Infosys

Full Stack Developer Course - EXCELR

IBM Data Analytics - IBM

DevOps on AWS - AWS Academy
